

Important Travel Information for Guests Driving into Key West

The southern 47 miles of the Florida Turnpike from US 1 interchange in Florida City to the Miami/Dade Broward County line no longer has any lanes that will enable a driver to pay cash. Fees are collected through photo identification of license plates or through SunPass transponders. If you are driving a rental car from South Florida to the Florida Keys, please contact your rental car company for more information on SunPass transponders, tolls and fees. If you are driving a personal vehicle, please contact SunPass for more information.

Travelers can call 1-800-749-PIKE (7453) or visit www.FloridasTurnpike.com/all-electronictolling for more information about the all-electronic tolling on Florida's Turnpike.
